

SawasDEE

APU

"EDITOR:PHANIDA"

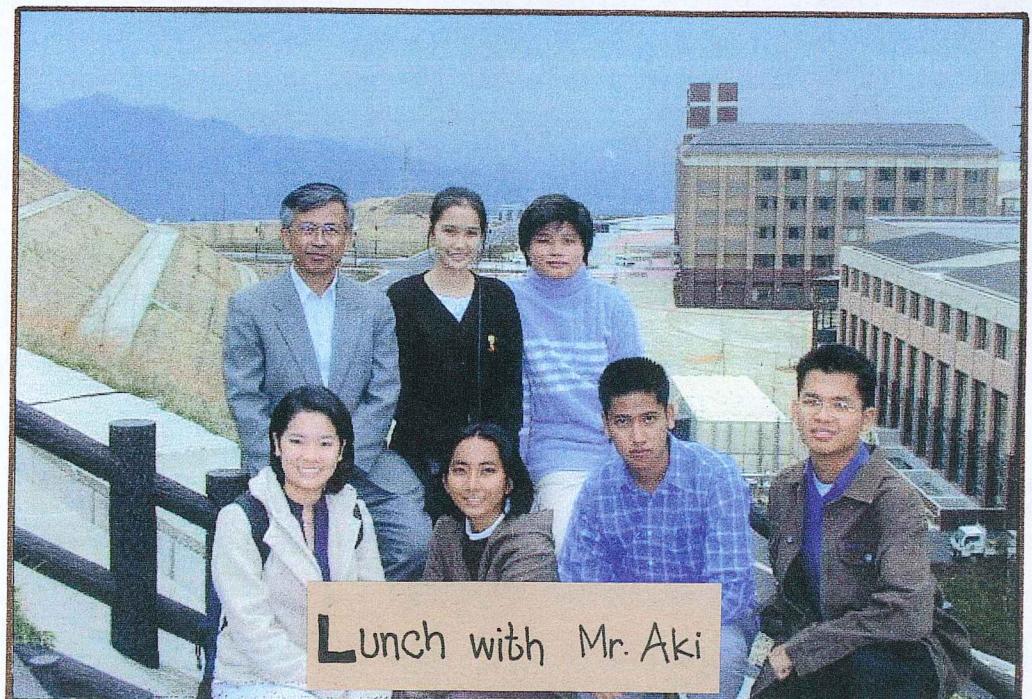

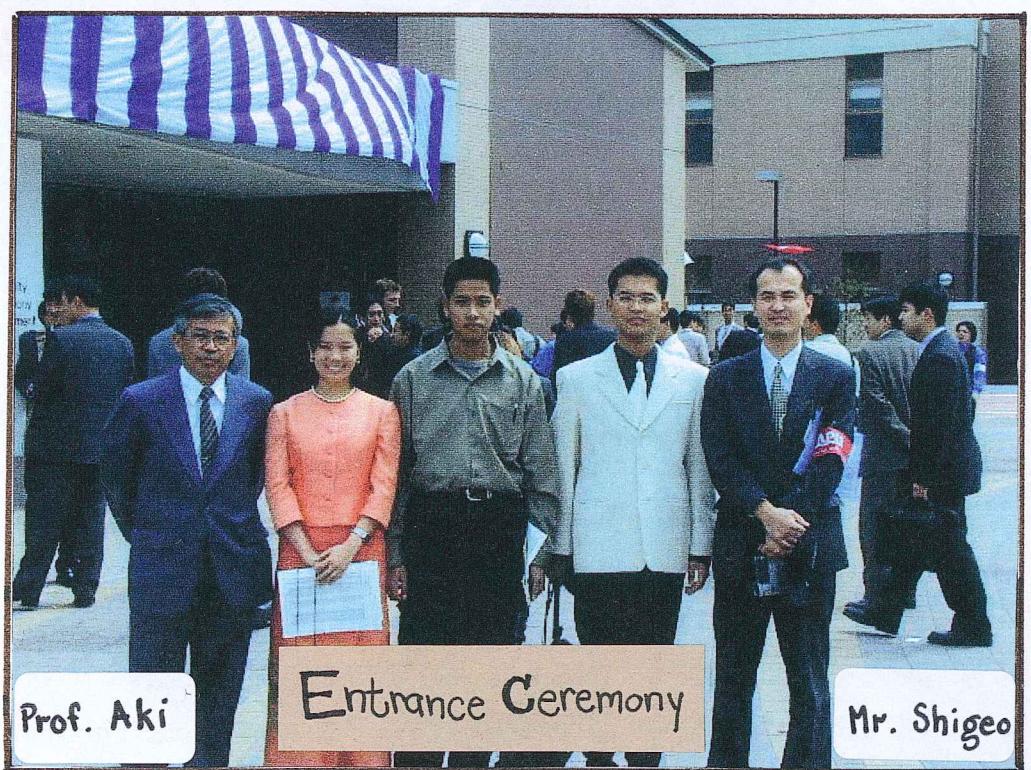

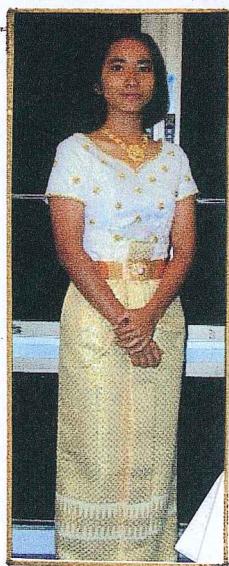

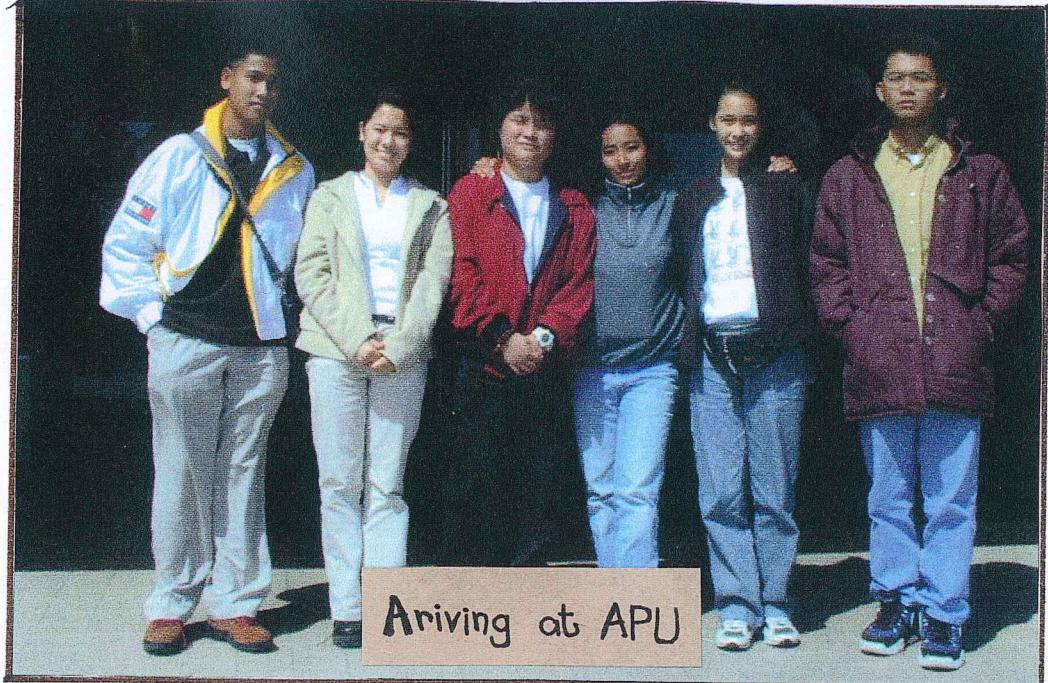

WOW, What a trip !!!

This journey is very important for us 'coz it include all feeling ; excited , sad , surprised , disappointed and other more.

We left our beloved country , family , and friends on 23rd March , took an ANA to Kansai airport and then transferred to Oita airport . It all took about 6 hours . We got such a warm welcome from APU staffs (Thanks a lot) . Then the bus took us to our new home where is so wonderful , much better than we thought . We were so surprised with every single thing . APU is so peaceful , totally out of the city surrounding with huge mountains . It's absolutely miracle place for studying . We made new foreign friends and saw our very new modern dormitory (AP-House) . We all like our new lives here , but most of problems are about the expenses (very high price of food , transportation , and all necessary stuff) . So we've really saved !!

Anyway , we highly appreciate this great chance that APU and our cooperators gave (Dr. Twee , Dr. Govit) . Thank you so much . (Thank Lord Buddha !! Opsee....)

Just want to let everyone know , right now we (Thai team) are holding on together very tight and we're surviving !!!

 こんにちは, I have such a very good time here. Make so much friends, Japanese are very friendly. APU is so awesome, but too windy, raining, and earthquake sometimes. I'm trying to study as hard as I can. Thank you so much for all your encouragements.

For a week I have stayed here. Perhaps I feel homesick and lonely 'coz I am not accustomed to new surroundings. But I believe that this feeling won't stay for very long 'coz new surroundings in APU will make me feel better.

Since I arrived here,
AT AP. HOUSE. I was
impressed by RAs. They
help me in many many
things and gave me
many many suggestions.

for example, how to use the telephone in my room, how to check my letters ... etc. I think that's very nice and other that I like the weather, the environment here!

APU is absolutely my ideal university - great friends, great environment and great multicultural which I think it would take advantage for all of us. Anyways, all that append if there is no cooperation I would like to thank everybody for

Hello everybody, I really have a good time here new school, friends, and society. But problem that I worry about is Japanese language, I know just so tiny bit. So I have to work very hard on it and try my best to do, to learn and adapt myself for new things.

สวัสดีครับ นักเรียนคนหนึ่ง ชื่อ APU ห้องนี้ ใจดีมาก
และน่ารักมากครับ ทุกๆ อย่างในห้องเรียน ไม่ว่าจะเป็น นักเรียน ครู อาจารย์
และการบริการต่างๆ ล้วนเป็นไปอย่างราบรื่น นักเรียนทุกคน มีความกระตือรือร้น
ในการเรียน ทุกคน มีความมุ่งมั่น ในการเรียน ทำให้เราได้รับความรู้
อย่างมาก ทุกคน ต่างกันไป แต่ก็มีความ相似กัน
คือ ทุกคน มีความตั้งใจ ในการเรียน ทุกคน ต่างกันไป แต่ก็มีความ相似กัน

"Ring"

A color portrait of a young girl with dark hair pulled back, wearing a black top over a white t-shirt. She is smiling at the camera.

Living in APU, I think it is such a very new and exciting society. There're a lot of friends from many countries and they have their own languages. I have been here, Japan, someday in the future I must be able to speak Japanese !!

(I hope) I might be grown up cuz of living here. Now I'm away from parents so I've to manage everything by myself. And I have to adapt myself more than ever. :)

To say
"Sawasdee"
is to greet
in Thai
language.
